NIAGARA AREA BUSINESS ASSOCIATION AWARDS \$500 SCHOLARSHIP TO NHS STUDENT

June 21, 2017

The Niagara Area Business Association (NABA) recently awarded Mackenzie McCarthy with a \$500.00 scholarship to help in her efforts to pursue a degree in psychology with an emphasis on substance abuse at the University of Oshkosh.

Students who applied for the scholarship submitted essays explaining what their future plans were along with their transcripts. Finalists were awarded points based on their essay, filling out the application correctly, and their transcripts.

Members from the Niagara Area Business Association reviewed the applications and selected a winner. "We are so happy to be able to support our local students," said Daniel Freeman, President of NABA, "We wish Mackenzie McCarthy the best of luck in her future endeavors. She's going into a very important field and I hope she can make a difference."

The Niagara Area Business Association's mission is to provide a platform that encourages the growth and support of our local businesses through business networking opportunities and special events which support and enhance our community. New members are always welcome. For more information, visit www.niagarawi.biz.
